

[Click for larger picture](#)

**Materials required.** Thread (20 or 40) and beads. Two shuttles, 16 beads on Sh1 & 50 beads on Sh2. More beads needed to add to picots before joining.

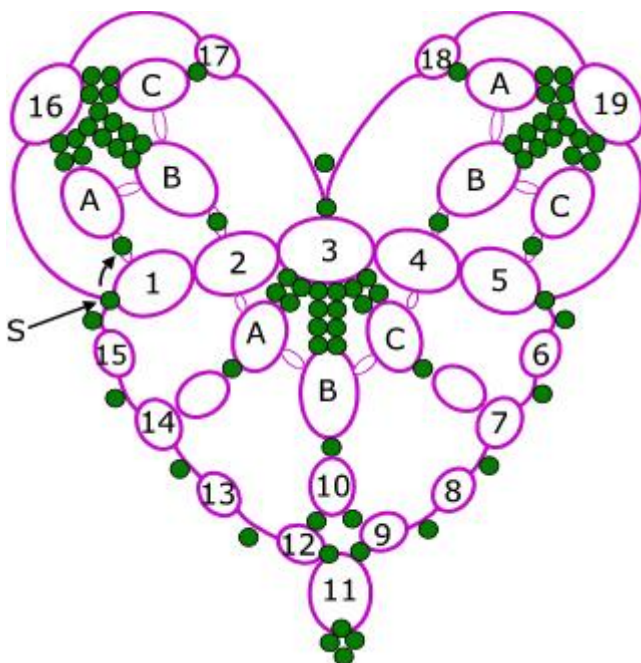

**Skills required.** Knowledge of split rings and throwing rings off second side of split rings. Using beads.

**Abbreviations**

R	Ring	Ch	chain
- or p	Picot	SR	split ring
/	after the / make 2nd half of SR	B	move bead in place of p
+ B	add bead to picot before joining	Sh2	Shuttle 2 (shuttle in right hand)
Sh1	Shuttle 1 (shuttle in right hand)	+	join
Lj	join made with shuttle thread	Cl	close
RoSR	ring on split ring	T & C	Tie and cut
SS	Switch shuttles	B <sup>BBB</sup>	1 bead on core thread, 3 beads on other thread moved into place
Mb	move bead on core thread next to base of R, SR or double		
WSH	The shuttle currently being used		

The pattern uses some split rings which have rings on the second side. To make this easier to read I have indented the rings on the second side of the SR.
