

Tattysaurus the Dinosaur

Jane Eborall © 2000

[Click here for larger picture](#)

Introduction

The tattysaurus (measuring approx. 16" nose to tail) is made up of sections of tatting worked between very narrow metal (Indian) bracelets each measuring 2 3/4". The two body sections are straight and the three neck sections are wedge shaped and worked at angles to each other. (See Figs. 1 & 1a). The face is worked in sections – upper and lower with sides to both and 'cheeks' in between. The tail is worked in decreasing rows. Wings and legs are worked separately. Split rings are used in the wedge shapes and legs. The wings are split rings with rings worked on the second half of the split. The whole tattysaurus can then be stiffened (I used PVA glue, but only on the face).

Materials:-

No. 20 Manuella thread in green (all rings) and contrast colours (bright) for the chains and some split rings. White for eyes. Small gold rocaille beads. Two large beads for eyes. 6 bracelets. PVA glue or other stiffening agent.

Abbreviations

BR1	bracelet 1	BR2	bracelet 2	R	ring
Ch	chain	SR	split ring	+	join
+B	join & add bead to picot being joined to				
Vsp	very small picot	S	starting place		

Neck/wedge sections (3)

(Wsh1 = green, Wsh2 = contrast)

NB The sections do not meet at each end of row 1

Fig. 6

The next wedge section of the neck is joined to the previous one in exactly the same way, starting the 3rd row on the new bracelet. On the 4th row, take care to join in between the joins on first wedge's bracelet. (See Fig. 6)

When attaching the contra-wedge section to the previous 2 wedges, work as last but attach in the opposite way - i.e. with the narrowest part of the new section attached to the widest part of the previous section. Join the 1st R of 4th row to 13th 'space' in row 3 of previous wedge. (See Fig. 7)

Fig. 7

Upper Face - the 1st join is made between 9th & 10th joins of the last wedge of the body. Further joins are made between following 'spaces'

R: 2 +B (p of last R) 2 +B (next Ch of row 6) 2 - 2 Repeat from * twice

Row 8

As last row (total of rings and 2 chains)

See fig. 8

Side face - this will shape the upper face - repeat on 2nd side

Hold the face in left hand and upside down before starting 1st ring.

R: 2 +B (1st p of 1st ring of row 1) 2 - 2 - 2

Ch: 4 +B (1st p of 1st R of row 2) 4

R: 2 +B (3rd p of last R) 2 - 2 - 2

Ch: 4 +B (1st p of 1st R of row 3) 4

R: 2 +B (3rd p of last R) 2 - 2 - 2

Eyes - 2yds of chain thread needed for each eye. A chain is worked and formed into a ring to include 1 large bead for each eye.

Make false picot at beginning of chain of 5 vsp 5. Pull shuttle thread through the base of the vsp to form a loop. Add the eye bead and join to false p making a mock ring.

Continue with chain of vsp 5 vsp 5 + (first vsp) vsp 5 vsp 5 + (vsp at base of mock ring) vsp 4 vsp 4 + (next vsp) vsp 4 + (3rd p of 3rd R of side face) 4 + (next vsp & 1st Ch of row 3 of upper face) 8 + (next vsp & next Ch of row 3 of upper face) 4 + (1st R of row 4 of upper face) 4 + (to vsp) T & C Make second eye to match, See figs. 10 & 10a

Fig. 10

Fig. 10a

Upper jaw - The edge of the upper mouth is worked round the side face, eye and upper face. 15 beads are added to the ball thread. No beads are added to 1st and last chains.

R: 4 + (BR between 8th & 9th wedge joins) 4 +B (p of 1st R of side face) 4 - 4

Ch: 4 - 4

R: 4 +B (last p of last R) 4 +B (2nd ring of side face) 4 - 4

Ch: 4 B 4

R: As last R but joining to 3rd R of side face

Ch: 4 B 4

R: 4 +B (p of last R) 4 + (2nd vsp of eye **NB** no bead added here) 4 - 4

*Ch: 4 B 4

R: 4 +B (p of last R) 4 +B (1st R of row 5 of upper face) 4 - 4

Continue from * joining each ring to the 1st rings on rows 6, 7 & 8 and chains on row 8 of the

upper face. Continue to work the second side to match the first.

Lower Face

Row 1

R: 4 - 4 - 4 - 4

Ch: 2 B 2

R: 4 +B (p of last R) 4 +B (p on same R of 6th row) 4 - 4

Ch: 3 B 3

Continue working second side of lower jaw as first, joining final ring to BR.

Fig. 11a

Fig. 11a shows the joins made to lower face when working the jaw line.

NB as this row shapes the jaw, the diagram is not to scale.

Cheeks – work with lower face to the left

R: 8 + BR (space between join on wedge shape) 4 – 4 + (to 1st p of chain of lower jaw)

Ch: 4 B 4

R: 4 +B (p of last R) 4 + BR (space between join on wedge shape) 4 – 4

Ch: 4 B 4

R: 4 +B (p of last R) 4 +BR (space between join on wedge shape) 8 + (to 1st p of chain of upper jaw)

Make second cheek on opposite side of face to match.

Fig. 11b

Tail Section

Using green as shuttle thread and different contrast as ball thread on each row. This section is worked onto a new bracelet, which will form the end of the second body section.

Row 1

R: 4 – 4 – 4 – 4

*Ch: 4 +BR 4

R: 4 +B (3rd p of last R) 4 – 4 – 4

Repeat from * 24 times joining final ring to first ring with a bead. Work one further chain to complete (26 rings & chains altogether).

Fig. 12

Rows 2 - 12

R: 4 – 4 – 4 – 4

*Ch: 4 +B (ring of last row) 4

R: 4 +B (3rd p of last R) 4 – 4 – 4

Fig. 12

Fig. 13

Decrease twice on each row by joining two rings with a chain (including a bead). The 12th row will have 4 rings and 4 chains. Joins are made by pulling the 2nd p through the 1st p and adding a bead. See Fig, 13.

Joins should be made opposite each other and as equally spaced as possible with each successive row decreasing at 90° (3 o'clock & 9 o'clock) to the previous row. See figs. 13a, b & c below for guidance.

Fig. 13a - join red rings on row 1

Fig. 20c

Finishing off

Split two bracelets and insert them through the outer picots of the wings down one side, through the body of the tattysaurus and out and up through the second side. Cut to fit and turn ends over to secure.

Catch the legs onto the body with a few stitches.

Using PVA glue, stiffen the body and tail if needed. Dilute the glue with a little water and work carefully into the tatting. Pull into shape and allow to dry. The face may need a stronger solution of glue and it is suggested that the tattysaurus is allowed to dry hanging face down by it's tail! Please email me with any comments or for help on [this pattern](http://www.e.n.e.btinternet.co.uk/index.htm)
